

Spectral Network

Linking optical sampling to flux measurements around the world.

EUROSPEC Conference: 6th to 8th November 2013 in Trento, Italy.

REGISTRATION AND ABSTRACT SUBMISSION

Participants who would like to actively participate in the conference, are requested [to submit an abstract](#).

Abstract submission deadline is 31st July 2013.

Papers are being accepted in these areas:

- Continuous and episodic spectral measurements integrating energy and matter fluxes
- Spectroradiometer calibration and field measurements issues
- Cyber-infrastructure, spectral database platforms
- Upscaling carbon flux and biophysical measurements using UAV, airborne, satellite optical data
- Remote and proximal sensing of vegetation fluorescence

SPECIAL ISSUE

A **Special Issue** titled "*EUROSPEC - spectral sampling tools for vegetation biophysical parameters and flux measurements*" will be opened as part of the journal **Biogeosciences**. Full papers submission will be open on the 1st December 2013 and will be open until 30th November 2014. Depending on the number of submissions to the BG Special Issue, it is expected that a substantial number of papers will get the submission charges funded.

IMPORTANT DEADLINES

- Abstract submission deadline: 31st July 2013
- Confirmation of abstract acceptance by the organization: 31st August 2013
- Registration Fee payment deadline: 15th September 2013
- Final program: 31st September 2013
- Full paper submission to Biogeosciences open: 1st December 2013
- Full paper submission to Biogeosciences deadline: 30th November 2014
